

- What are the primary types of surveys that the Enterprise Survey Management System will be used for?
 - **Mostly staff surveys. Will also include some parent and student surveys.**
- Will the vendor communicate directly with the schools choosing to administer their own surveys, or will all communication be with the district office?
 - **All vendor communications will go through the district office.**
- What is the budget available for the Enterprise Survey Management System?
 - **\$10,000 / year**
- Is it required for the vendor to have a Iowa Registration #?
 - **The awardee must be registered with secretary of state for Iowa to be able to perform work within the state, registration can occur post award but before service is rendered**
- What is the district's interest in the different web interfaces for specific question types?
 - **We desire web interfaces for all question types to be mobile compatible.**
- How many different surveys does DMPS wish to administer during the school year across all schools?
 - **This is unknown, as surveys are not currently centralized. Rough estimate: 150**
- Why does the district desire display logic such as skip and branching?
 - **We desire the ability to ask common questions to all staff and questions specific to different employee types in one survey**
- Why does DMPS desire for respondents to save their progress and finish the survey where they left off at a later time?
 - **We desire this for the ease of use for survey respondents with the anticipation that some surveys may be long and staff members are interrupted during their day.**
